

ONE READER TO ANOTHER

Anca Meret,
Reference Librarian,
Recommends:

“Atul Gawande, the *New York Times* bestselling author of *Complications*, examines, in riveting accounts of medical failure and triumph, how success is achieved in this complex and risk-filled profession. At once unflinching and compassionate, *Better* is an exhilarating journey...” (*Salon.com*).

MICHAEL KOEHN HSL'S NEW ACTING DIRECTOR

Michael Koehn, the Head of Technical Services in the Health Sciences Library, has become the acting director of the library, filling the vacancy left by Alena Ptak-Danchak's departure from Columbia in April.

Michael joined the university last year to direct the Technical Services, the behind-the-scenes department in charge of acquiring and organizing library materials for easy and convenient use. In that role Michael was responsible for overseeing most phases of the massive project by which about 350,000 volumes of books and journals were processed and sent to off-campus storage.

Before coming to HSL, Michael served as a systems librarian, helping oversee electronic library systems for the entire Bergen County (NJ) Cooperative Library System. In addition to his new duties as acting director, Michael will continue to occupy his role as Head of Technical Services.

Michael Koehn

BUILDING A NEW HOME FOR THE NEUROLOGICAL INSTITUTE, 1925-1929

The Neurological Institute (NI) of New York was founded in 1909 and it is the oldest hospital in the Western Hemisphere solely devoted to the treatment of neurological diseases.

After almost 20 years in an inadequate building on East 68th Street, in 1925 the NI chose to join the medical complex emerging in Washington Heights now known as the Columbia University Medical Center. It was given a prime plot at the corner of Fort Washington Ave. and West 168th St. on which to build a new home.

A pictorial exhibit by Archives & Special Collections at the Health Sciences Library tells the story of the construction of the Neurological Institute building in 1925-1929 with vintage photographs and original documents. The structure remains the home of the neurological service of both the hospital and medical school. It is part of a series of exhibits celebrating the centennial of the NI.

The Neurological Institute

The exhibit is located on the lobby level of the Augustus C. Long Health Sciences Library, Hammer Health Sciences Center and can be seen until the end of May during regular Library hours. For information about hours visit: <http://library.cpmc.columbia.edu/hsl/information/hours.html>

For more information about exhibit please contact: hslarchives@columbia.edu

ACCESS CUMC SCHEDULING CALENDAR W/ RESOURCE 25 WEBVIEWER

The scheduling calendar for classes and events at CUMC can now be viewed online on the Medical Center campus:

<http://r25web.cumc.columbia.edu:8080/wv3>. It can only be viewed from off-campus computers when using VPN.

The WebViewer is also linked from the CUMC IT home page, under the “Getting Help” heading. Locations listed in the WebViewer are only those that are scheduled by CUMC IT’s Classroom Technology Support group: <http://cumc.columbia.edu/it/cts/rooms.html>

There’s a lot of information in the WebViewer, so please keep a few things in mind when you are using it. Links in the upper left corner and to the right change the views:

- **Events** - make sure that the **By Date** link is selected below Events, then select your desired date on the Calendar to the right, and select the appropriate School Filter under the Calendar.
- **Locations** – also make sure that **By Date** is selected under the Locations link, then adjust the Calendar on the right and select the appropriate Location Filter under the Calendar.
- The **Calendar** on the right can be adjusted to show **Day**, **Week** or **Month** views via buttons at the top of the Calendar. Day is recommended if you’re looking at a School or Location Filter with many listings.
- **Location Filters** will only appear if you have **Locations** selected as the upper left link; **School Filters** will only appear if you have **Events** selected as the upper left link.
- You can select **View as a List** or **View as a Grid** below the date in the center of the window to change the view of the main content on screen.
- Double click on any individual **Event** to see more details about that Event, including a description and future scheduled meetings.
- Double click on any **Location** abbreviation to see details about the space’s A/V and computing resources, seating and pictures of the space.

Only approved people at CUMC can place reservation requests via the WebViewer. If you select a link and are prompted to login, please use the Back button on your browser to return to your previous view. If you need to schedule special events on campus, please see the HSL Classes and Workshops calendar to register for upcoming Resource 25 Training Sessions – this is required to obtain a login.

More details about the new WebViewer are at: <http://cumc.columbia.edu/it/cts/r25.html>

PUBLIC COMPUTER SECURITY CHANGES

Computers in the HS Library, Labs and Classrooms have been made more secure to prevent the spread of viruses, trojans and other malware. This means that:

- It is no longer possible to save to the computer’s My Documents folder, C: drive, or other parts of the computer’s hard drive. Instead, please save to a Network Share: select the My Computer icon from the desktop or within the Save dialog box, then select a Network Share listed. Please note that not all public computers connect to the same Network Shares.
- Any USB key or blank CD/DVD that put into the computer will not automatically open a window to browse the media; you will have to browse to it manually by opening Windows Explorer (right-click on the Start button and select Explore), or opening the My Computer icon.

We will be placing signs in the public computing areas to remind everyone of this and make the changes as easy as possible. The changes were necessary to keep infected files and data from being saved on the public computers, and will help keep CUMC’s network – as well as all systems attached to it – much more secure.

HSL SUMMER HOURS

Mon. - Thurs. - 8:00 am – 8:00 pm
 Fri.. - 8:00 am – 6:00 pm
 Sat. - 10:00 am – 6:00 pm
 Sun. - 12:00 Noon – 8:00 pm
 Walk-in Research Help: Mon. - Fri., 12 Noon – 4 pm
 24 Hour Computer Room - 24 hours/7 days
 After Hours Study Room - 24 hours/7 days
 PH-17 Computer 8:00 am - 2:00 am
